

CAR WASH DRYING AGENT

9D414G55 55 Gallons - 209 Liters

Product Description

Revolutionary new berry scented polymer based drying agent/clear coat protectant containing siliconized carnauba for enhanced shine and maximum drying capabilities.

Advantages

- Fresh berry scent.
- Multi-purpose – works as both a clear coat protectant and drying agent.
- Fortified with siliconized carnauba to impart shine and protection while providing enhanced water break and sheeting for optimal dryer performance.
- Excellent for use in in-bay automatics and tunnel car washes.
- Effective in both high and low pressure applications.
- Free rinsing.
- Reclaim compatible.

Directions

For high and low pressure applications, dilute 90:1 to 120:1. If using hydrominder proportioner, use a yellow or purple tip. Do not allow to freeze. Freezing separation can occur at 32 degrees Fahrenheit.

Shipping weight in pounds: 55 gallon plastic drum / 478.9 pounds

Specifications

Physical Form	Clear Liquid
Color	Red
Scent	Berry
Specific Gravity	0.967
Density	8.07 lbs./gal.
Biodegradable	Yes
pH 2%	6.0 – 7.0
Freezability	Keep from freezing
