

Petra Universal Cooling System Cleaner

PN 4001 (12 FL OZ) Technical Data Sheet

Product Description

Petra Universal Cooling System Cleaner is a high-quality alkaline cleaner designed to clean light-duty (car and truck) automotive cooling systems as part of a Petra coolant flush service. It is a balanced formulation that gently cleans radiator passageways, heater cores, and the entire cooling system to help remove scale, rust, and other deposits and to prepare the system for fresh coolant as the last step in the coolant service. It is safe for all metals, hoses, and elastomers.

Features

- Alkaline cleaner- no need to neutralize
- Removes rust and scale deposits which can impede cooling system performance and degrade coolant and reduce the service life
- Safe for all cooling systems

Benefits

- Cleans in one easy step- no need to neutralize
- Universal product- can use with conventional, OAT/Long-life, and hybrid coolants
- Helps restore cooling system performance
- Helps maximize coolant performance and service life

Typical Properties

Color	Light yellow/green
pH	10.5-11.5
Density (g/ml)	1.02
Lbs/Gal.	8.53
